

SUMMER INTERNSHIP PROGRAM 2026

Full Stack Development · AI Integration · Cloud Deployment

100-120 hrs

Total Project

6 hrs/day

Daily Sessions

60+

Unique Projects

1:15

Mentor Ratio

Full-time Online · 2nd & 3rd Year Students

Two Tracks. One Mission.

2ND YEAR TRACK

Full Stack Development

Build strong frontend fundamentals in React with hands-on guided project development.

Core Technologies:

HTML · CSS · JavaScript (refresher)

ReactJS

NodeJS

MongoDB

REST API

3RD YEAR TRACK

Fullstack + AI + Cloud

MERN stack with AWS development, deployment, and AI integration.

Core Technologies:

HTML · CSS · JavaScript (refresher)

ReactJS · NodeJS · MongoDB

REST API

AWS (Dev + Deployment)

AI Integration

6 Hours of Structured Learning

Daily LeetCode Warm-Up · First 30 Minutes

1 Easy LeetCode problem solved at the start of every session — building consistency, logical thinking, and a strong coding profile over the entire program. Small daily wins compound into impressive growth!

0:00 – 0:30

LeetCode Warm-Up

1 Easy Problem Daily

0:30 – 2:30

Core Concept Session

New Technology / Feature

2:30 – 2:45

Break

Rest & Refresh

2:45 – 5:30

Hands-On Project Work

Guided Project Building

5:30 – 6:00

Review & Q&A

Mentor Check-In

What You'll Build. Who's Behind You.

Full Stack Portfolio

Production-ready projects using MERN stack

AI-Powered Apps

Real AI integration for 3rd year track

Cloud Deployment

Deployed apps on AWS (3rd year)

Strong LeetCode Profile

60–80 consistent problem-solving entries

Interview Ready

DSA habits + full-stack experience
